

## Delivery Date Chart

To calculate a ewe's delivery date, locate the date she was bred below. Note the corresponding Julien day and add 152 to it. Subtract that number from 365. If after adding the Julien day to 152 you get a number higher than 365, subtract 365 from it. The resulting number is the Julien day of delivery. Note the corresponding Calendar day.

Julien Day	Calendar Day
